Little things for a new look Rameder antennas lend any car a stylish look

Many car owners want to individualise their car. With **Rameder** retrofit antennas, drivers can lend their car a modern and stylish look. And Europe's largest provider of transport accessories' online shop also includes so-called mini antennas. Simply order them for EUR 5.95 at www.rameder.eu.

For example, the modern mini 10 cm antenna made of polished aluminium. Or the alternative 17.5 cm model, which is a bit longer but still of the mini type.

And **Rameder** always also includes a screw adapter, with which you can install your antenna on any roof base. These antennas lend any car a modern look. But they don't only look good! Despite their small size, these antennas also have an excellent FM and AM signal.
