

Press release Calendar Week 23/I

No spring fragrance but a lot of power! The Rameder brake cleaner “made in Germany“

When oil, grease, raisin or silicone sticks to highly stressed parts of a car, even “Mr. Clean” will despair. You then better consult a real expert – like the **Rameder** brake cleaner. At www.rameder.eu The 500 ml can is now available for only EUR 3.99.

This powerful detergent “made in Germany“ is ideal for pre-treating heavily stressed parts of the brakes, clutch and transmission and their joints. It also makes for top friction coefficients. Friends of (modern-era) classic cars may also use it on the carburettor. It easily removes brake dust, grime, oil and grease fast and permanently.
